Amiga Specialty expands Commercial PI capacity to over US$20 million

5th November, London, UK – Specialist Managing General Agent (MGA) Amiga Specialty has strengthened its Commercial Professional Indemnity (PI) proposition, securing additional underwriting capacity through its existing partnership with AXA XL's UK and Lloyd's business, alongside new support from the Lloyd's market.

The agreement takes Amiga Specialty's total available Commercial PI capacity to over US$20 million, complementing its existing arrangements with Accelerant and Bridgehaven and further diversifying its panel of capacity providers.

Building on AXA XL's existing support for Amiga Specialty's Financial Institutions business, the additional capacity marks a further step in the development of the MGA's specialist underwriting capabilities. It provides greater flexibility to deliver tailored insurance solutions across a broad range of professional sectors, while supporting brokers seeking larger limits for selected risks.

The expansion follows continued growth in Amiga Specialty's Commercial PI portfolio, investment in its specialist underwriting team and the acquisition of renewal rights to Volante's PI portfolio. Together, these developments reflect the MGA's focus on strengthening its underwriting proposition while maintaining a disciplined approach to portfolio management and long-term growth.

David Filtness, Managing Director of Professional Indemnity at Amiga Specialty, commented:

"Securing this additional capacity represents an important milestone in the development of our Commercial PI proposition and reflects the confidence of our insurer partners in our underwriting strategy.

"Having a strong and diversified capacity panel is fundamental to delivering sustainable growth. Our focus is on managing appropriate average line sizes, maintaining a balanced portfolio and deploying capacity responsibly, while providing brokers with the flexibility of a one-stop-shop solution for selected risks requiring larger limits.

"With our capacity structure now in place, alongside the growth of our portfolio, investment in our underwriting team and the Volante renewal rights acquisition, we are well positioned for the next phase of our development.

“Our priority remains building a sustainable, specialist PI business with strong broker relationships, technical underwriting expertise and a commercially focused approach.”

The additional capacity reinforces Amiga Specialty’s commitment to developing a specialist Commercial PI offering that combines underwriting expertise, strong insurer partnerships and the flexibility to respond to brokers’ evolving requirements.

About Amiga Specialty

Amiga Specialty is an international Managing General Agent (MGA) headquartered in London, specialising in underwriting specialty lines insurance for blue-chip clients. Established in June 2025, Amiga Specialty combines technical underwriting expertise with a client-focused approach to deliver tailored insurance solutions across global markets.
